# Bulldog Chill and Freezing Systems

Foodmac International Ltd has over 30 years experience manufacturing industrial freezing and chilling systems. We produce modular and pick up in one units and are able to install anywhere in the world. Manufactured in house by our experienced engineers, in the UK, we pride ourselves with using quality components. You will receive a chiller or freezer at a fraction of the cost of other manufacturers, with British engineering, no middle men or agents fees and you can rest assured of the best prices .
